**Why did you decide to become an FYE Mentor?**

There is a quote I hold dear to my heart, "Be the Person You Needed When You Were Younger." I don't think it always means younger in age. It can also be in experiences. This gives me another opportunity to be what I wish I had when I started out so that others do not have to fight as hard as I did and to know they also have someone in their corner who understands and is rooting for them.
