**Interesting Facts:**

- I love Chemistry.
- I can braid my own hair.
- I can eat spaghetti for a whole week.
- If I could live anywhere in the world, I would chose New York City.
- I love helping people just so they can smile.

**What has helped you succeed so far at CCBC?**

My determination in life has helped me succeed at CCBC. I do not like to fail, and that alone has motivated me to always do better. I've gotten as much help as I can at CCBC, from the writing center, to the tutoring center and to being a member of the First-Year Experience Mentor Program. I plan for my classes, tests and quizzes, and that has helped me stay on track for all of my school work.

**Why did you decide to become an FYE Mentor?**

I decided to be an FYE Mentor because I love being in a position to help people. I love to provide solutions to people's problems when I can. As a mentor, I've been able to help many students adjust very well to college. I've been able to provide help to them when they needed it.
